

Wetherbee School – 21st Century Community Learning Centers – Exemplary Programs Grant

The Wetherbee School expects to make application for consideration of an award to support and expand a statewide network of high quality 21st Century Community Learning Programs. Specific to Wetherbee, the award supports the school's commitment to Expanded Learning Time, an integrated program of enrichment, individualized interventions, project based learning, and community service opportunities. If successful, the Wetherbee School will join a small number of schools in the state that have been named Exemplary Programs for dramatically increasing learning time during the school day and will host visits from other aspiring schools across the Commonwealth. For more information, please reach out to Mary Toomey, Deputy Assistant Superintendent. mary.toomey@lawrence.k12.ma.us
